

Dogs in the George Brown Darwin Botanic Gardens

Dogs and their owners are welcome in the Botanic Gardens and to ensure that all visitors enjoy this beautiful part of our city, we would ask that dog owners:

- ensure that their dogs do not interfere or trouble other visitors;
- do not allow their dogs into the Children's Playground;
- do not allow their dogs to enter ponds or waterways as these are important habitat for local wildlife; and
- always clean up after their dogs.

Your assistance with these simple requests will ensure that all visitors to the Gardens enjoy themselves.
